OBJECTIVE

Passionate and detail-oriented Java Full Stack Developer with hands-on experience in building dynamic web applications using Java, Spring Boot, and front-end technologies like HTML, CSS, JavaScript, and React. Skilled in designing end-to-end solutions, integrating APIs, and working on database management. Strong problem-solving abilities, collaborative mindset, and eager to contribute to innovative projects while continuously learning and growing in a fast-paced development environment.

EXPERIENCE/ACADEMIC PROJECT

Java Full Stack Developer

Pune

Smart Coaching & Training Planner

Description: Developed a comprehensive web application for managing coaching and training schedules. Implemented the backend using Spring Boot, frontend with React.js, and managed data using MySQL. Designed APIs, ensured smooth integration between front-end and back-end, and deployed the application as a live site, providing real-time access to users.

Key Achievements:

- Built a fully functional full-stack application handling scheduling, user management, and data storage.
- Successfully deployed the application live, ensuring accessibility and real-time functionality.
- Streamlined training management processes, enhancing usability and efficiency for end users.
- Demonstrated end-to-end full stack development skills, including backend, frontend, database, and deployment.

EDUCATION

Bachelor of science (computer science)

2022 – 2025

Savitribai Phule Pune University
